Contents

Critical analysis of models and recommendations for designing column-base connection by socket of precast concrete structures

R. M. F. Canha and M. K. El Debs

Proposal of design model for column-base connection by socket of precast concrete structures

R. M. F. Canha and M. K. El Debs

Design Parameters for Reinforced Concrete Columns Strengthening with CFRP

A. O. Rigazzo and A. L. Moreno Jr.

Finite Element Model for Segmental Structures

Aline da Silva Ribeiro, Américo Campos Filho and Alexandre Rodrigues Pacheco

Strengthening of reinforced concrete structures in bending with CFRP

S. Dias, L. Juvandes and J. Figueiras
