December 2005

ISSN 0000-0000

Contents

Carbonation Behavior in Reinforced Concrete Beams Under Stress Regime V. M. Silva, J. B. L. Liborio, M. de Castro	01
Sulfate Attack on Sulfate-Resistant Portland Cement Containing Limestone Filler E. F. Irassar, V. L. Bonavetti, M. A. Trezza, G. Menéndez	17
Microstructural Analysis of Carbonated Concretes Containing Mineral Admixtures A. de Castro, A. N. M. Lopes, N. P. Hasparyk, H. Carasek, O. Cascudo	33
Mitigation of the Effect of Alkali-Silica Reaction in Concrete Structures: A Review B. Fournier, M. A. Bérubé, M. D. A. Thomas, K. J. Folliard	53
Model for Prediction of Reinforced Concrete Service Life Based on Electrical Resistivity C. Andrade	61
Effect of Wetting and Drying on the Behavior of Polymer-Modified Cement Materials J. de Oliveira, D. A. Silva, L. A. Gómez	67
Microstructural Changes in High Density Concretes Exposed to High Temperatures R. C. A. Lima, F. M. Haesbaert, L. F. Caetano, C. P. Bergmann, L. C. P. Silva Filho	84
